Save on car insurance

CAR INSURANCE CAN SAVE YOU A LOT OF MONEY IN THE CASE OF A CRASH OR CLAIM. HOWEVER, NO ONE WANTS TO PAY TOO MUCH FOR COVERAGE. HERE ARE SOME WAYS TO GET THE BEST RATE TO FIT YOUR BUDGET.

- **Shop around.** Compare rates from a wide range of insurance companies, as costs can vary greatly.
- **Consider a higher deductible.** While not right for everyone, carrying a higher deductible can significantly lower your rate.
- **Pay the premium in full if possible.** Some insurance companies offer a small discount if you pay the yearly costs all at once instead of in smaller chunks.
- **Bundle your insurance.** There is often a discount if you get car insurance from the same company as your home or renter's insurance.
- **Look into extra ways to save.** Some insurance companies offer discounts for things like driving a safer car, taking a defensive driving course, or parking in a garage.
- **Maintain a good credit score.** Insurance companies may use your credit score to determine your rate.
